

Job description: Analyst (Camco Pacific)

Location: ANZAC/Pacific region

Background

Camco is a climate and impact fund manager, leading the transition in emerging markets. Having spent over thirty years in the renewable energy sector, we provide project developers and investors with a unique combination of global access and local presence. We offer practical and valuable financing solutions, pairing the discipline of a development bank with the agility of a small private company.

Camco was formed in Nairobi in 1989 and currently manages four investment platforms aimed at financing innovative solutions to address climate change and deliver positive impact in emerging markets:

- Renewable Energy Performance Platform (REPP) - a USD120m facility funding distributed renewable energy, both on- and off-grid, in Sub-Saharan Africa. REPP is fully funded by the UK Aid budget through the Foreign, Commonwealth & Development Office.
- Spark - a USD100m facility financing energy efficiency and captive solar projects in Sub-Saharan Africa's commercial and industrial (C&I) sector, building a diversified and well-structured portfolio of clean energy projects with a strong ESG profile.
- Transforming Island Development through Electrification and Sustainability (TIDES) - a USD100m blended finance platform for the Pacific aimed at providing flexible financing to local renewable energy developers with the goal of catalysing investment in zero-emissions projects across the full range of sizes, from mini-grids to large grid-connected systems.
- Peace Renewable Energy Credit (P-REC) Aggregation Fund - a USD10m impact-focused fund unlocking finance for new renewable energy projects in fragile, energy-poor countries in Sub-Saharan Africa by providing upfront P-REC revenue to project developers in exchange for the ownership of P-RECs generated by the project.
- Camco is also an Accredited Entity to the Green Climate Fund.

Camco has a team of over 25 professionals spread between Auckland, Sydney, Nairobi, Accra, Johannesburg, London, Helsinki and Toronto. We have an informal and collegial working culture focused on results.

Camco is entering a new and exciting phase as we seek to become one of the leading climate and ESG investors in key emerging markets. We plan to grow by launching new funds focused on the climate and development imperatives, yielding high-quality and substantial ESG outcomes along with strong commercial results.

You can see some of the results of our work in our [2021 impact report](#) and [REPP Annual Report](#). Supporting investee country priorities is important to our business and [this report explains](#) how we are achieving this.

Role

Reporting to the Camco Pacific Director, the analyst will:

- Project manage new fund roll out. This will involve:
 - project planning: developing a project plan that outlines the timeline, budget, resources, and deliverables for the project;
 - risk management: identifying and proposing mitigation for potential risks;
 - stakeholder engagement and communication: keeping stakeholders informed to ensure needs and expectations are communicated; and
 - status reporting: preparing and issuing project updates as per an agreed timeline and format.
- Analyse and help to structure possible fund investments (debt and equity)
- Undertake financial modelling and financial model audits
- Complete commercial and financial due diligence, market research and financial analysis
- Draft investment proposals and assist in presenting those proposals to internal and fund investment committees
- Support all aspects of investment portfolio management
- Undertake targeted research and marketing efforts in order to support the development of a pipeline of new investment opportunities, and
- Perform any other duties as may be required.

Requirements

We're after someone who has good experience and wants to take their next career step to help to develop a leading climate and impact fund manager. Candidates should:

- Have at least an undergraduate degree in business, economics, finance, accounting, engineering or a similar relevant field
- Minimum 3 years of applied experience in a financial analyst or project management role
- Have excellent written and oral communication skills
- Be proficient in Microsoft Excel and be strong at financial modelling
- Have the presentation skills and gravitas to inspire confidence in the team and Camco's fund management bodies
- Be a strong team player and have a passion for climate and impact investing in developing markets, and
- Be a self-starter and independent worker with good business acumen.

Location

ANZAC/Pacific region. Some short-term travel within the Pacific region may be required.

Employment conditions

Camco is an equal opportunity employer and has comprehensive gender and diversity equity policies and action plans. We encourage flexible working and have a comprehensive parental leave policy. We offer competitive remuneration and are in the process of implementing a broad-based Share Ownership Plan for team members. The Camco Board has an employee director selected annually by all team members.

How to apply

Please email your 1-2 page CV and cover letter in one single file to careers@camco.energy on or before 7 March 2023. The application process will remain open until a suitable candidate is appointed.
